

"COMBO" BINDING MACHINES

	COIL MACHINES																	COMB	WIRE		
	Manufacturer	Sheet Format	Punch Capacity (# Sheets)	Binding Capacity	Punching Length	Pitch	Reverse Switch/Jam Release	Open P Punch Throat	Adjustable Side Margin	Adjustable Depth Margin	Die Disengaging Pins	Warranty (# Years)	Machine Construction	U-shaped Alignment Channel	Electric Inserter	Coil Crimper	Diameter Selector	Table/Ruler/Guide	Wire Selector	Weight (Lbs)	
COMBO MACHINES (MANUAL PUNCHING)																					
WB-110 (Comb + Wire Combo)	SIRCLE	Letter ONLY	10(Comb) 10 (Wire)	5/8"(Comb) 1/2" (Wire)	11"	Comb & Wire 3:1			•			1	ABS	N/A	N/A	N/A	N/A	N/A	•	•	20
CW-350 (Comb + Wire Combo)	SIRCLE	Letter ONLY	16(Comb) 13 (Wire)	2"(Comb) 9/16" (Wire)	11"	Comb & Wire 3:1			•	•		2	ABS	N/A	N/A	N/A	N/A	N/A	•	•	41
WR-200 (Wire + Wire Combo)	SIRCLE	Letter ONLY	15	Up to 1"	11"	Wire 3:1 & Wire 2:1			•			2	ABS	N/A	N/A	N/A	N/A	N/A	•		38
AWMD (Wire + Wire Combo)	AKILES	ALL formats	20	Up to 1.25"	14"	Wire 3:1 & Wire 2:1		•	•	•	• (40)	1	Metal	N/A	N/A	N/A	N/A	N/A	•		53
ADM-C41 (Comb + Coil Combo)	AKILES	ALL formats	20	Up to 2"	Comb 14" Coil 13"	Comb & Coil 4:1		•	•	•	24Comb 5 Coil	1	Metal	•	Optl.	•	•	•	N/A		64
ADM-C31 (Comb + Wire Combo)	AKILES	ALL formats	20	2"(Comb) 9/16" (Wire)	Comb 14" Wire 14"	Comb & Wire 3:1		•	•	•	24Comb 40 Wire	1	Metal	N/A	N/A	N/A	N/A	N/A	•	•	64
ADM-C21 (Comb + Wire Combo)	AKILES	ALL formats	20	2"(Comb) 1.25" (Wire)	Comb 14" Wire 14"	Comb & Wire 2:1		•	•	•	24Comb 27 Wire	1	Metal	N/A	N/A	N/A	N/A	N/A	•	•	64
ADM-431 (Coil + Wire Combo)	AKILES	ALL formats	20	2"(Coil) 9/16" (Wire)	Coil 13" Wire 14"	Coil 4:1 & Wire 3:1		•	•	•	5 Coil 40 Wire	1	Metal	•	Optl.	•	•	N/A	•		53
ADM-421 (Coil + Wire Combo)	AKILES	ALL formats	20	2"(Coil) 1.25" (Wire)	Coil 13" Wire 14"	Coil 4:1 & Wire 2:1		•	•	•	5 Coil 27 Wire	1	Metal	•	Optl.	•	•	N/A	•		53
COMBO MACHINES (ELECTRIC PUNCHING)																					
CW-150E (Comb + Wire Combo)	SIRCLE	Letter ONLY	15(Comb) 15 (Wire)	2"(Comb) 9/16" (Wire)	11"	Comb & Wire 3:1			•	•		2	ABS	N/A	N/A	N/A	N/A	N/A	•	•	40
WR-150E (Wire + Wire Combo)	SIRCLE	Letter ONLY	15	Up to 3/4"	11"	Wire 3:1 & Wire 2:1			•			2	ABS	N/A	N/A	N/A	N/A	N/A	•		39
CW-4500 (Comb + Wire Combo)	SIRCLE	Letter ONLY	25(Comb) 20 (Wire)	2"(Comb) 1" (Wire)	11"	Comb & Wire 3:1			•	•		2	ABS	N/A	N/A	N/A	N/A	N/A	•	•	45
WR-2500 (Wire + Wire Combo)	SIRCLE	Letter ONLY	25	Up to 1"	11"	Wire 3:1 & Wire 2:1			•			2	ABS	N/A	N/A	N/A	N/A	N/A	•		45
VersaMac	AKILES	ALL formats	up to 55	N/A	14"	All		•	•	•	•	All	1	Metal	N/A	Optl.	Optl.	N/A	N/A	N/A	121
Interchangeable Die Machine (VersaMac is a "combo" machine only when additional die sets are purchased).																					
VersaMac Includes ONE Standard Punch Die Set of your choice (Choose: Coil 4:1, Wire 3:1, Wire 2:1, Comb, 3 Hole). Additional Punch Dies available (See website).																					
VersaBind-E	TAMERICA	ALL formats	up to 20	N/A	14"	All		•	•	•	All	1	Metal	Y	N/A	N/A	N/A	N/A	N/A	N/A	102
Interchangeable Die Machine																					
VersaBind Includes FOUR Standard Punch Dies (Coil 4:1, Wire 3:1, Wire 2:1, & Comb).																					

DEFINITIONS

Die Disengaging Pins- Pins that disengage are pins that you can "turn off". When you pull the pin out, that particular pin will not punch a hole in your document when you pull the handle down. This allows you to control where your holes are punched in your document.

Comb table/ruler/guide- This is a guide on the machine that you can put your stack of papers up to. The guide will let you know what size coil you should use based on how many papers you need to bind into one booklet.

Punching Length- This is the length of paper and how many holes that the machine can punch at one time.

Open Punch Throat- This is an open side to the machine where you put your papers in to punch. If the machine has an open throat, you can punch documents that are longer than standard 11.5" length.

Adjustable Side Margin- This tool allows you to move a guide along the side for proper paper alignment and more accurate hole punching on each end of your document.

Adjustable Depth Margin- This tool allows you to move a guide along the top for proper paper alignment and more accurate hole punching on the long side of your document.

Continuous Binding Control- Prevents over-opening of combs.

Pitch- The pitch is how many rings there are per inch. For example, the coils have 4 rings per every inch of binding (4:1 Pitch).

U-Shaped Alignment Channel- An essential tool for books thicker than 1/2". Put your paper in this channel and it creates the same curved form as your coil.
