COMB MACHINES (ELECTRIC PUNCHING)																					
CB-150E (Comb + 3-Hole Punch)	SIRCLE	Letter ONLY	15	Up to 2"	11"	N/A			•	•		2	ABS	N/A	N/A	N/A	N/A	•	N/A	39	
CW-150E (Comb + Wire Combo)	SIRCLE	Letter ONLY	15(Comb) 15 (Wire)	2"(Comb) 9/16" (Wire)	11"	3:1			•	•		2	ABS	N/A	N/A	N/A	N/A	•	•	40	
CB-240E	SIRCLE	Letter ONLY	25	Up to 1-1/2"	11"	N/A			•	•	• (24)	2	ABS	N/A	N/A	N/A	N/A	•	N/A	52	
CW-4500 (Comb + Wire Combo)	SIRCLE	Letter ONLY Letter ONLY	25(Comb) 20 (Wire)	2"(Comb) 9/16" (Wire)	11"	3:1			•	•		2	ABS	N/A	N/A	N/A	N/A	•	•	45	
MegaBind-1E	AKILES	ALL formats	20	Up to 2"	14"(24 Pins)	N/A			•	•	• (24)	1	Metal	N/A	N/A	N/A	N/A	•	N/A	40	
CombMac-24E	AKILES	ALL formats	25	Up to 2"	14"(24 Pins)	N/A			•	•	• (24)	1	Metal	N/A	N/A	N/A	N/A	•	N/A	70	
VersaMac	AKILES	ALL formats	up to 55	N/A	14"	All			•	•	•	All	1	Metal	N/A	Optl.	Optl.	N/A	N/A	121	
<i>Interchangeable Die Machine</i>																					
<i>VersaMac Includes ONE Standard Punch Die Set of your choice (Choose: Coil 4:1, Wire 3:1, Wire 2:1, Comb, 3 Hole). Additional Punch Dies available (See website).</i>																					
VersaBind-E	TAMERICA	ALL formats	up to 20	N/A	14"	All			•	•	•	All	1	Metal	Y	N/A	N/A	N/A	N/A	N/A	102
<i>Interchangeable Die Machine</i>																					
<i>VersaBind Includes FOUR Standard Punch Dies (Coil 4:1, Wire 3:1, Wire 2:1, & Comb).</i>																					

DEFINITIONS

Die Disengaging Pins- Pins that disengage are pins that you can "turn off". When you pull the pin out, that particular pin will not punch a hole in your document when you pull the handle down. This allows you to control where your holes are punched in your document.

Comb table/ruler/guide- This is a guide on the machine that you can put your stack of papers up to. The guide will let you know what size coil you should use based on how many papers you need to bind into one booklet.

Punching Length- This is the length of paper and how many holes that the machine can punch at one time.

Open Punch Throat- This is an open side to the machine where you put your papers in to punch. If the machine has an open throat, you can punch documents that are longer than standard 11.5" length.

Adjustable Side Margin- This tool allows you to move a guide along the side for proper paper alignment and more accurate hole punching on each end of your document.

Adjustable Depth Margin- This tool allows you to move a guide along the top for proper paper alignment and more accurate hole punching on the long side of your document.

Continuous Binding Control- Prevents over-opening of combs.

Pitch- The pitch is how many rings there are per inch. For example, the coils have 4 rings per every inch of binding (4:1 Pitch).
